

# First Nations Languages Education Program

The First Nations Languages Education Program aims to support the community language learning activities required to increase the numbers of speakers and educators.

The Australian Government Department of Education has partnered with First Languages Australia to design a national grant program sufficiently flexible to meet local language community needs.

**Grants will be available for projects that:**

- deliver intensive community language learning activities,
- support community language learners to develop teaching skills, and
- build or extend community-led partnerships toward teaching languages in schools.

Community leadership of the program will be one of the three selection criteria for this project and grants will target Indigenous community organisations.

Through the coming months, First Languages Australia will be working with language communities to develop project plans that meet the above criteria. Express your interest in the program by completing this [form](#), and a member of the project team will call you to discuss your proposal and provide further details of the application process.
